PRESS RELEASE

Cache County Offices Move to Partial Closure

Cache County is deeply concerned for the welfare of its employees and the general public. Therefore, at this time, County Executive Craig Buttars has determined to move to a **PARTIAL CLOSURE** status for all county offices.

We continue to encourage citizens to conduct as much business with the county online as possible. However, if transactions cannot be completed online, appointments can be made with individual departments. **Beginning Wednesday, March 25, 2020, access to county buildings will be by appointment only.** Please call the department before arriving so accommodations can be made to allow access and conduct business following the precautionary protocols set by the CDC and the Bear River Health Department for the COVID-19 pandemic.

We are consulting with the Bear River Health Department (435-792-6500) on an hourly basis and relying on their well-researched and evaluated information. Of course, the current situation is very fluid, and things can change quickly, but we believe this is the best practice for our government offices at this time. It is anticipated that this partial closure will continue through Friday, April 10, 2020. We will get through this with your support and patience. Thank you for your understanding. **STAY SAFE**
